Adobe Photoshop or Elements Tip of the Week:

It's a Scrapbooker's Prerogative to Change Their Mind

When I am scrapbooking, I turn into an indecisive mess. I try this and try that. Move this and move it back. Select something and deselect it. It's a wonder I ever finish a page!

Good thing for me, Photoshop and PSE have shortcuts that assist in my indecision:

Pressing **Ctrl + D (Mac Cmd + D)** on the keyboard deselects whatever I have selected.

Pressing **Ctrl + Shift + D (Mac Cmd + Shift + D)** reselects whatever I have deselected.

Now I can select, deselect and select again with just a few keyboard clicks! Long live indecision!

Have a great week and we'll see you at DesignerDigitals!

Katie and Randy
