

Abandon the Confirmation Checkmark at DesignerDigitals

Happy Weekend! And I think for most of you, Happy Summer! I am beginning to think that we are the only ones who are still in school for another week. Kelly is aching to be done with school for the summer but with high school sports tryouts in the fall, it seems like we are going to have a busy summer of training on top of camps and trips! What are you up to this summer? Sitting back and relaxing I hope.

You know, over Christmas a number of people do Days of December albums. What about the Days of Summer? I'd love to see some of you take on that challenge! And to help you get started we have over 45 new items in the store including two at 25 cents.

And, of course, we have 2 NEW 25 cent items for today and tomorrow ONLY! Don't Miss them!

Adobe Photoshop or Elements Tip of the Week:

Abandon the Confirmation Checkmark All Ye Who Enter Here

I'm not sure how amused my English Literature professor would be with my take on Dante's *Divine Comedy*, but I think you'll like this text tip.

When you are typing a line of text in Photoshop and PSE, pressing the **Enter key** takes you to a new line. But pressing **Ctrl + Enter (Mac: Cmd + Enter)** will finish your text without having to click the confirmation checkmark.

Now that's a timesaver even Dante Alighieri (and my English Prof) could appreciate!

Have a great week and we'll see you at DesignerDigitals!

Katie and Randy
