Adobe Photoshop or Elements Tip of the Week:

Open for Business!

You can also watch this tip on video on our blog: [Digital Scrapbooking Tips and Tricks: Cycling through open items \[Video\]](#)

One of my favorite things about buying online is that the stores are always open. 24 hours a day, 7 days a week, I can satisfy my need for instant gratification. No need to call ahead to see what's open and what's not.

Photoshop makes it easy to see what's open, too. When you are working on a project and need to switch to another open file, just press **Ctrl + Tab** (**Mac: Cmd + Tab**) on your keyboard to cycle through all of your open documents.

To try this out, open several files in Photoshop or PSE. Press the shortcut keys **Ctrl + Tab** (**Mac: Cmd + Tab**) to view the open files one at a time in sequence.

Have a great week and we'll see you at DesignerDigitals!

Katie and Randy
