

## Change the Document Size at DesignerDigitals

Can't believe we're wrapping up September this week, seriously! wow! Temperatures are starting to change and I am certainly ready for the New England colors! Can't wait to get out and capture the colors and scrap them! And we've got a busy fall with trips to family and have to get cranking on those Christmas gifts! I have 3 photobooks that I \*have\* to get done! Busy Busy! But we've managed to put together over [35 new items](#) in the store this weekend including two at 25 cents.

We also have our first in a series of [Kits for a Cause. HOPE for Breast Cancer](#), a collaborative kit, is available in the store until December 25th when all proceeds will be donated to the Susan G. Komen Foundation.

Make sure to join us on [Facebook](#), [Twitter](#) and [Flicker](#) for news, challenges and our Daily Photo events!

### **Adobe Photoshop or Elements Tip of the Week:**

#### **Size Matters - How to Determine and Change the Document Size**

**You can also watch this tip on video on our blog:** [Digital Scrapbooking Tips and Tricks: How to Determine and Change the Document Size \[Video\]](#)

In Photoshop and PSE, sometimes size does matter. When you have opened a photo or document and need to know the size, press **Ctrl + Alt + I (Mac: Cmd + Opt + I)** to activate the Image Size Dialog box.

This box gives you the current dimensions of your document and allows you to change the size on the fly.

In the Document Size section, you can quickly change the size, but remember that sizing UP can adversely affect the resolution of your photo. Be sure to click the **Constrain proportions box** to maintain the aspect ratio and avoid the funhouse effect.

Click **OK** to confirm the size change.

Have a great week and we'll see you at DesignerDigitals!
